OBJECTIVE

Final-year B.Tech CSE student with 1.3 years of internship experience in full-stack development and AI . Proficient in React, Next.js, Node.js, and LLM integration. Seeking a Software Engineer role to apply expertise in full-stack development and scalable web architecture.

EXPERIENCE

AI Intern

CodeApto

Aug 2025 – Feb 2026

- Designed **AyurGyaani**, an agent-based AI Ayurvedic assistant enabling natural language symptom understanding and personalized herbal guidance across 100+ herbs categories.
- Leveraged Claude and Cursor AI across the agent development lifecycle including prompt design, iteration, and debugging to accelerate feature delivery for AyurGyaani.

Frontend Developer Intern

CodeApto

Jul 2024 – Jan 2025

- Built and optimized a modern, responsive frontend for ElevateBPM using React 18, Framer Motion, improving SEO by 8% , performance by 11%, and user engagement through efficient rendering strategies, seamless backend API integration, and smooth animations across all devices.

PROJECTS

AyurSaathi

reactjs, nextjs, javascript, tailwind css, mongodb, redis

- Built AyurSaathi, an end-to-end traceability platform ensuring tamper-proof tracking of Ayurvedic herbs across 5 supply-chain stages, from geo-tagged collection to consumer-verified QR labeling.
- Designed and implemented AyurSaathi's admin and stakeholder dashboards supporting 3 distinct user roles, enabling role-based access control across 100+ herb batch records.

WriteSphere | Link

react.js, tailwind css, node.js, express.js, mongodb,redis,cloudinary

- Built a full-stack publishing platform using Next.js, React, TypeScript, Node.js, Express, and MongoDB, with a custom rich-text editor supporting slash commands like /h1, /code, and /quote.
- Integrated AI features (Groq API, Llama-3.3) for text generation and grammar suggestions, and secured the platform with JWT authentication and bcrypt password hashing.
- Containerized the app using Docker and Docker Compose, running the frontend, backend, MongoDB, and Redis as separate services for easier deployment and scaling.
